## Trial Employment

### At no cost to you

We provide you with a job candidate and we pay for their first 2 – 3 weeks of initial training. Ensure it's a good match before you hire at no risk to you!

### Here's How it Works!

- You provide us with a description of the job you need to fill
- We refer one or more of our mature workers for an interview
- You notify us if our interviewee is suitable
- We complete the minimal paper work to place our client
- We pay the wages for 2 weeks if FT or 3 weeks if PT at the rate you are willing to pay
- We cover workers compensation during the trial period

While reviewing our clients, you benefit from their dependability, maturity, and life experience. Mature employees:

- Work as well as their younger counterparts
- Bring stability to the workplace and often serve as role models
- Reduce training costs because of their low rate of turnover
- Are capable and eager to acquire new skills

**EMPLOYERS:** *The next move is up to you! Call Peninsula Family Service*

*if you would like to take advantage of the trial employment. A simple agreement needs to be signed before we start.*
